

without K-Love as a resident my family would be suffer. Having to listen to any other radio station would be terrible. I commute to another city everyday and K-Love is the only radio station that I can receive without problems. If K-love was to be displaced by LPFM it would damage the great job that K-love provides for our local community and take away the freedom that they have to do so. K-love provides a great service to the community by providing a family based radio station that the whole family can listen to.
